2	<b>PG research centre in Chemistry and Environmental science</b>	The Applied Biology laboratory is recently started in the Department. The research focus is integrating Bioengineering, Nanotechnology with Life sciences. The current research projects are on diagnostics and biosensing for hospital borne and water borne infections and metabolic diseases. The aim is to develop Point-of-Care devices for prognosis, diagnosis and monitoring of diseases integrating nanomaterials. The laboratory also gives hands-on experience to under-graduate and post-graduate students to carry out short-term projects and practicals. The lab is having microbial culture laboratory, refrigerated centrifuge, PCR, electrochemical workstations, Biosafety cabinets. The department is planning to develop a state-of-the art laboratory for Nano-Biotechnology and Bioengineering. We have also started with Animal Tissue Culture and Molecular Biology Lab with equipments like Biosafety cabinet, CO <sub>2</sub> incubator, Centrifuges, plate readers, Gel electrophoresis set-up.
3	<b>Microbiology and Nanobiotechnology Laboratory</b>	The language lab offers a platform for students and Faculty members to enrich their communication skills with the help of software applications available in the lab such as Renet Language Studio, ESPOIR Interview Simulator, ESPOIR Spoken English, ESPOIR English through Science and Technology, etc. It also helps students to practise various international level exams in Business English and TOFEL, GRE.
4	<b>Animal Tissue Culture and Molecular Biology Laboratory</b>	College students are the cream of young adult population. Many a times it is observed that they are under tremendous pressure that stems from various aspects like expectations about excelling academically, adjusting with the change in environment, family pressure, family problems, striking a balance between academics, extra-curricular activities,
5	<b>Language Laboratory</b>	
6	<b>Mitr-Wellness Centre</b>	

		<p>relationship issues, conflict in the values of the society at large and sometimes, psychological dysfunctioning. The range of problems addressed include academic (exam stress, nervousness, lack of interest, perceived stress, year-down and backlogs, study habits, time management, and sometimes depressive symptoms), adjustment issues (lack of confidence, perceived insults, clashes with people, and inability to adjust with change in environment especially for First Year students), relationships (family, clashes with family members, pressure about achievements &amp; responsibilities, trouble with friends and intimate relationships or tumultuous personal relationships) and personal issues (depressive thoughts &amp; ideas, negative or ambiguous self-image, inferiority complex, unhealthy habits (smoking, drinking, drugs, etc.), fear, and sometimes psychological issues like suicidal ideation, obsessive and/or compulsive tendencies, depression, anxiety, etc.).</p> <p>All these issues have been and are being dealt with professional psychological counseling wherein the students' record is maintained and a follow up is done. The number of session vary as per requirement. If need be, family members can be called for and also, group counseling takes place as per requirement. All cases are handled in the most confidential and empathetic manner. The general success rate is quite satisfactory, considering that students have largely reported of becoming better and self-reliant at handling problems.</p>

## Yoga Club-

The Yoga club of the College of Engineering, Pune, was established in 2006. Yoga Club is for health and immunity in today's fast life. It provides an adequate number of tutorials to practice yoga. Interactive sessions with the state level, National level, international level yoga experts. It helps in keeping our mental and physical health intact.

Yoga Club conducted an interactive and practical online Yoga session. Mrs. Amruta Deshpande ma'am delivered lecture regarding yoga. She showed different techniques to do yoga practically. Yoga Club also helped the AICTE proposed Student Induction Program in monitoring the Yoga session series organized by Student Induction Cell for the First-year students on the topic of "MIND MANAGEMENT FOR EXCELLENCE IN LIFE". Experts (Mr. Anuraag Chabra and Mr. Nitin Diwate) from Maharshi Arvind Foundation delivered 1 hr lecture regarding Mind Management and conducted yoga sessions which included 1. Shabda Pranayama 2. Khechari Mudra 3. Bhutshuddhikriya Every year the Yoga Club celebrates International Yoga Day in college which falls on 21st June. The Club members also visit various Yoga institutes and arrange lectures regarding stress management, mental and physical health by experts.

For various throwing events, COEP's Athletics team has Javelins, Shotputs, hammer, disks. For conducting various running events we have relay batons, starter, hurdles, small hurdles, football cones, wooden and plastic clumper, pairs of spikes. For the purpose of practice for the Athletics team members we have, Athletics parachutes, ankle weights, weight jacket, skipping ropes and mats(including short and long), set of hammer and tire.

### Boat Club

COEP is fortunate to be situated along the banks of the Mula river and holds extreme pride in being one of the few colleges in the world to have its own Regatta and it is also recognized by The Limca Book of World Records as "The Longest Running Event by an Institute" in the year 2019-20. The name itself suggests that Regatta is a series of boat races. The event comprises of five shows, namely Arrow Formation, Shell Games, Kayak Ballet, Tele matches, Punt Formation. This event exhibits the unique and rare boats that exist in India. This gala, a 94-year-old legacy, is a major attraction for the people of Pune and draws in a large crowd every year.

### Teaching Learning Process

Learning is a procedure where the teacher and the learner is an active participant in knowledge acquisition. Hence in this process the college implements and practices innovative/ interactive methods. In order to achieve outcome-based education, various student-centric methods are adopted. The teacher has to use different methodologies to provide students with sufficient information. The following are the methodologies: We employ of illustration and special lectures, field studies, case studies, project-based methods, group learning methods and Powerpoint presentations apart from pedagogic techniques. The campus is internet-connected and Wi-Fi enabled. All the expert lectures on E-Learning resources are made accessible to all. Group discussions are conducted as a part of activity-based education. Task-based discussions to improve the perception level to the high end

and foster the same for posterity. Experimental Learning is practised to enhance the employability and entrepreneurship skills among the students. Timely and periodical industrial visits are scheduled. We encourage our Faculty and students to use online lectures and online courses like MOOCs, NPTEL and other Websites. Each lab/workshop is furnished with an appropriate layout design & maintained as per AICTE norms and check that lighting, ventilation & furniture have a conducive ambience. Laboratories are equipped with experimental set-ups, computers & peripherals. Qualified lab instructors/technicians are hired for its smooth functioning. Special care is taken to ensure that all the experiments as per the curriculum are covered. A few experiments beyond the curriculum are also practised. We conduct regular assignments on every covered topic to test the immediate learning outcome and continuous assessment of learning ability and conducting group discussion are a regular part of teaching. Distinguished lectures and hands-on workshops by professionals and industry experts are arranged to keep our students abreast of the latest technological developments. Students are encouraged for internships and to participate in state and national technical competitions like BAJA, Robotics, Hackathons and such similar activities. For smooth conducive of the above practices, daily and monthly reports, and weekly cumulative time management report of all activities from each department is updated to the Director. Hobby clubs (Gymkhana, Boat club, Janiv club etc. ) are a part and parcel of our student holistic development programme.

In addition to the traditional teaching-learning methods, the institute is providing innovative student-centric methods such as Hackathons, Workshops, Seminars, the development of a Virtual Lab, the use of software for modelling and simulation, paper presentation and for review of web literature, Activity-based learning, take NPTEL/ MOOCs /Flipped Classroom courses. Guest lecture, Professional practice school, Project based learning, and real-time case studies, take live industry projects, involve in research projects, participate in poster presentation competitions, to encourage participative in problem-solving and experiential learning. Institute encourages students to participate in various clubs.

Students Exchange Program effectively implemented for Autonomous Colleges in the State with Credit Transfer Scheme deployed for a Semester. "A Bilateral Students Exchange among Autonomous Institutes in the State, with Credit Transfer, adds value to the aspirants in terms of Experiential Learning". Student Exchange Program with Ostfalia University, Germany.

By the end of March 2020, due to Covid Pandemic, the regular offline lectures/practicals were discontinued and students were sent to their home town. Keeping in mind the social distancing issues, to safeguard the health and safety of our students and by adhering the notifications from the statutory bodies, the Academic Plan for -AY:2019-20 onwards was revised to ensure timely completion of teaching and evaluation process.

Although "Technology cannot replace Teachers", academics of half of the last semester was conducted online including examinations and the ongoing odd semester of the academic year has thoroughly been planned online owing to the pandemic. We started imparting lectures in an online mode from 3rd August 2020 onwards with the relentless efforts of our faculty, dedicatedly working to enable a semblance of the regular semester for our students.

Our alumni and industry have been supporting the institute by empowering around 175 financially challenged deserving students with reasonably high-end configuration laptops with data cards. With such enablement, students shall be able to take online theory classes, submit weekly quizzes/assignments, take in-sem and end-sem examinations and also participate effectively in some simulation mode/programming type of lab courses. There has been an empowering policy of the Board of the Institute, to equip every fulltime teacher on campus with a state-of-art desktop computer or a laptop, with a wired or wi-fi internet connection when on campus for facilitating lectures and practicals of the students in an online mode.

COEP procured the CISCO-Webex licenses for each faculty to use for teaching remotely in conjunction with the MOODLE platform (free open source LMS) and the faculty continued teaching online mode as per the timetable slotted by the respective Department. The training sessions were scheduled on the use of MOODLE and shared recorded videos on the ease of use of MOODLE. The required hardware such as laptop/ desktop, web camera, digital whiteboards etc., for taking classes online, was provisioned to each faculty in the department.

To overcome the issues related to network connectivity glitches and power cuts that may interrupt online sessions, more so experienced by our students at their end, every lecture and online interaction were recorded and made available to students on Moodle. In addition to regular continuous

assessments, faculty used to take weekly assessments (e.g. low-weightage quizzes/assignments which can be submitted within a day) to ensure students were continuously engaged.

About 231 Faculty undertook various courses like “Digital Teaching Techniques” offered by ICT Academy, “Online Teaching Learning Pedagogies” offered by FICCI, Streamlining Engineering Curriculum for NEP 2020 and Management of Teaching Learning in Online Education” offered by IIT Kharagpur.
