To,  
The Dean (Academics),  
College of Engineering,  
Pune-5

**Subject: Approval of Revised Panel of our Industrial Advisory Board (IAB) for 2020-2023**

Dear Madam,

This is to bring to your kind notice that we had constituted our previous IAB for the duration 2016-18, which we wish to change as per the current needs along with ensuring a proper focus for the department. In current time's forgings, foundry, advanced composite and ceramic materials are gaining much more importance because of indigenization of many products under "Atmanirbhar Bharat" scheme. In this contest we propose the following IAB composition.

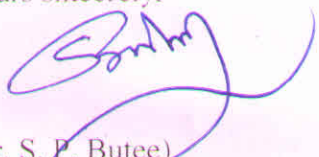

Sr. No.	Name	Affiliation	Role/Remarks
	Dr. S. P. Butee	Dept. of Metallurgy and M.S., College of Engg. Pune-411005 <a href="mailto:hod.meta@coep.ac.in">hod.meta@coep.ac.in</a> , 9422019150 (M)	Chairman

8	Dr. S.T. Vagge		
9	Dr. S.B. Sarkar		
10	Dr. Madhu Ranjan		
11	Dr. Vaishali Poddar		

The board will meet minimum twice every year to bridge the gap between the industry & academia and also strengthen their ties by planning the industrial linkage on various academic fronts for student and faculty like industrial visits, internships, industry relevant projects, training and consultancies. It will also help in identification of opportunities for industry collaboration and commercialization of academic and co-curricular activities apart from fostering entrepreneurship among students. It will further make sure that the course content of the UG and PG programmes are relevant to current and future needs of industry and attempt to achieve more intense and effective implementation of all of the above mentioned interaction channels.

Thank you and regards,

Yours sincerely,

  
(Dr. S. P. Butee)
